

Changes for the 2022 season

Following the AGM and the positive response to the proposed changes to the League events, we have drawn up revised schedules for both Major League and Peanuts.

Harking back to the roots of the League being to encourage fun competition between clubs we believe the changes buy directly into that ethos.

In Peanuts League we have dropped the age group Freestyle & Medley relays and replaced them with double age group mixed Freestyle and Medley relays, we have also introduced a mixed Breaststroke and a mixed Butterfly relay.

In Major League we have again dropped the age group Freestyle and Medley relays and replaced them with double age group mixed Freestyle and Medley relays, we have again introduced a mixed Breaststroke and mixed Butterfly relay and we have also introduced a "mountain climber" relay. Both Peanuts and Major League retain the 8x25 Squadron as the final event.

Double age group relays MUST have 1 boy and 1 girl from each age group but they may swim in any order. Squadron must have 1 boy and 1 girl from each age group and can be swum in any order.

Butterfly and Breaststroke relays must have 2 boys and 2 girls with 1 swimmer from each age group.

In Major League the "mountain climber" relay must have 2 boys and 2 girls with 1 swimmer from each age group.

Team size on the night is limited to 24 swimmers.

Clubs may enter multiple teams but a swimmer may only swim in 1 team during the season.
