

I am afraid that this email will not come as a surprise to you, but we have now had it confirmed that all the pools we use, will be closing as of Thursday 5th November.

All existing planned sessions will continue up to and including Wednesday evening.

Coaches will also continue to run the Level X sessions across the next three days and these times will be recorded and submitted to Swim England.

So where does this leave the Club?

You will be glad to hear that we are not going to sit here and do nothing..... ok well some of you will 😊

- 1) Firstly, we would like to hear from members as to what you would like to do during this period, so please email me and let me know your ideas. If you have an idea and want to run it, again please let us know, it would be great if we could do some social events too, not only the AGM on 13th Nov (no reason not to attend now).
- 2) Commencing 9th Nov, we will run two Land Training Sessions, most probably Wednesday & Friday, initially. During these sessions we hope to show you a new face who will support Geoff in running these sessions.
- 3) Week commencing 16th Nov we are then looking to run a number of Land Training sessions with our new trainer and Geoff. Based on the feedback we received when we asked previously, Monday thru to Thursday were the most popular days, from 17:00 to 19:30. Therefore we would be looking to do multiple days at differing times, giving everyone a chance to engage. Again, this will be open to the whole family, remember evidence showed that those who did Land Training, improved their strokes after the last lockdown.
- 4) Finally, during November we will also be planning to get back in the pool in early December, so please respond to any emails quickly when we ask for your support. We know this date may change but we believe the return notification could be quick, so we want to be able to get straight back in the pool without any delay.

As and when further information becomes available, we will pass it on.

Stay safe and see you all on Zoom, again..... 😊

Steve
