

Firstly, a big thank you to Geoff for putting this huge puzzle together. We will advise lane allocations per session prior to Saturday.

Please find attached the Holiday Allocated Training Schedule for 1<sup>st</sup> August to 30<sup>th</sup> August.

Can parents please make sure that you arrive by the published session start and end times.

At the moment all that we can offer is as follows based on your submissions - Two \* 1-hour sessions for **Red Squad** , One \* 1-hour & One \* 1.5-hours for **Yellow** & **Blue** Squads, one x 2-hour session for **Green Squad** .

We have a few spaces at present, currently we are not going to backfill these for the following reasons, a) we want to try and keep movements between sessions to a minimum b) we have swimmers on holiday or for various reasons unable to start or unable to book their slots at present.

As things progress and we all get comfortable with the “new norm”, then we will review this.

With everyone becoming more mobile from lockdown, we want to monitor how things go for the present.

I have attached the following documents;

- 1) Holiday training schedule
- 2) This squads allocated sessions
- 3) Status of Mandatory tasks

**Please note**, we have a number of families who have not completed all the mandatory tasks, these must be completed prior to your swimmer attending their session. If you have not, your swimmer will be turned away. If you are having issue completing these, please let me know urgently. I have also placed the links below.

**Covid Liaison Officers (CLOs)** – again thank you to the 73 people who have volunteered (list below). Now you know your swimmer’s allocation, can you please urgently denote which sessions you can cover. Please tick the boxes for all sessions you can do for the month.

CLOs Link - <https://forms.gle/RhWYnFuT6FvXVeMB7>

If you can only denote some availability now, please make a note of the link Google provides at the end, to go back in and amend your submission.

Please be aware, if we do not have 2 CLO’s per session, we will have no choice but to cancel the session. We will be looking for the CLO’s to be at the pool 10 minutes prior to the published start time, to get themselves ready. I am at the latest looking to get next week’s rota out by Friday pm, along with the instructions for the CLO’s.

Finally, we are awaiting confirmation/clarification of the “what if” scenarios as far as swimmers coming down with Covid once we start. We will advise of the actions we will take and need you to take in the event that this occurs.

If you have any queries, then please let me know.

Steve
