

Car Parking

Please note that there are access restrictions into the new swimming pool at the new Inverurie Community Campus during demolition of the old Inverurie Academy and Swimming Pool. This means that part of the road operates as one-way traffic only, with traffic from Inverurie giving way to traffic exiting the new car park.

Please be aware that the new car park is likely to be extremely busy and there will not be space to park for everyone in the new car park.

The map below shows additional overflow car parking (which also operates under a one-way system) – this is only a 2/3 minute walk from the pool. Please use the pedestrian crossing when exiting the car park, follow the footpath past the Scout Hut and use the pedestrian access gate at the side of the school – please do not walk on the road as it will be very busy with traffic entering and exiting the car park.

Please do not park in the Inverurie Family Resource Centre opposite the (now demolished) old pool as the barriers are in action and you will get your car stuck.
