

Putteridge Swimming Club & Little Putts Academy

Covid-19 Protocol April 2021

This information may change as we start progress through the Governments Roadmap.

Our Starting Point is as we left of in October:

- Entry and Exit procedure at Inspire, Lea Manor and Lealands remain the same as October. (Little Putts will be sent directly Lealands protocol.
- Arrive 15 mins before your session starts at Inspire, Lea Manor and 10 mins Prior at Lealands.
- Masks to be worn within the facilities - we also ask the Little Putts to also where a mask where possible - its only for walking through Lealands for 10 mins.
- Anti bac on entry and exit.
- A register will be taken at ALL sessions - by attending training or lessons you are acting and according with the declaration that you have already signed for your child/children return to the pool.
- Arrive 'beach' ready, there are NO changing rooms or showers after training at any facility. **Exemption:** Little Putts - those children who cannot get changed themselves AFTER the session - but you must let us know if you need the changing room as further protocol needs to be followed and there is a maximum at any one time to adhere to social distancing rules.
- We are operating on the understanding and expectation that Secondary and Higher Education pupils are tested twice a week and will therefore not need to have their temperature taken on entry. However, **we will** be taking the temperature on entry of all nursery and primary school pupils, this is for everyone's safety as it is this age band that currently has the highest rate of infection (7/4/2021). We ask that parents wait with their child until this is done. If temperature is over 37.7 consistently, as we will take it 3 times, we will not be able to allow entry and a test will be recommended.
- As PSC and Little Putts Academy, our duty of care to all our members, we are doing all we can. The majority of the Coaching / Teaching Team have had their 1st vaccination. **ALL** Coaches and Teachers will be testing themselves twice a week regardless.
- Pool side will again be measured out and have stations for each swimmer- Swimmers need to stay in their lane or group configuration for the duration of each session/lesson.

Hopefully as we progress through the roadmap, restrictions will begin to ease. You have all done such an amazing job this last year! Starting, stopping, phasing in, paperwork etc. We are nearly there!

All we ask is that you test, and you must let us know if your child / family tests positive or is told to self-isolate.

Our Covid Team will take care of the rest.
