

Swim England Covid-19 Risk Assessment Template

All clubs must complete a Covid-19 specific risk assessment before returning to the water.

Below is a partially populated example that clubs can use to help inform their risk assessment. It is critical that this is completed in full detail.

Use this template as a guide and starting point to create your club's own Covid-19 risk assessment.

This is not an exhaustive list and we highly recommend that you complete a full risk assessment for your club returning to the pool.

It is critical to complete a Covid-19 risk assessment prior to activity taking place.

This document is how you intend to reasonably protect any participants, workforce, public etc from the risk of Covid-19. The protocols listed within this document must be reviewed regularly and changed accordingly if measures or guidance changes.

If you need support or advice in completing this risk assessment please contact Swim England officers for support.
