Head Coach Craig Oliver “This weekend was a great return to racing for many of our team. After low intensity training in the summer, we used this meet to assess where our swimmers are before we go into our big work blocks. We saw many swimmers equaling or beating personal bests, plus a few hitting bit improvement times! For the Coaching Team and I, this is a very encouraging start to the season and has us all that little bit more excited over what 2019 has to offer our BBF team”.
