

St Ives Swimming Club

Photography Policy

St Ives Swimming Club may wish to take photographs of individuals and groups of swimmers under the age of 18 that may include your child during their membership of the club. All photographs will be taken and published in line with the Photography Policy below. The photographs will only be used for publicity purposes. St Ives Swimming Club requires parental consent to take and use all photographs. Parents have a right to refuse agreement to their child being photographed.

Please note: Parental consent may be withdrawn at any time and the Club will take all reasonable steps to respect the wishes of the parent / guardian. This should be made in writing to the Welfare Officer.

Photography Policy

Why have a policy?

This Policy applies to all photographs taken on film or digital camera (including mobile phones) and all sorts of moving pictures including video recordings (and video streaming). The terms "child" or "children" include anyone under the age of 18 years. There has been much talk about whether it is safe to have images taken of children participating in sport. Whilst the great majority of images taken are appropriate and in good faith, it is a fact that images can be misused and children can be put at risk if common-sense procedures are not observed. To set out such procedures, this Policy has been prepared in line with Swim England Wavepower Guidance.

Aims of this policy

The Swim England Photography Guidance aims to help clubs avoid three often unintended and unforeseen potential sources of child abuse:

1. The use, adaptation, sharing or copying of images for child abuse purposes, either electronically or in print.
2. The possible identification of a child when an image is accompanied by significant personal information, which can lead to the child being 'groomed'.
3. The identification and locating of children where there are safeguarding concerns; such cases would include, for example, children who could be compromised by an image because:
 - They have been removed from their family for their own safety.
 - There are restrictions on their contact with one parent / guardian following a parental separation.
 - They are a witness in criminal proceedings.

Recommended best practice

1. The publishing of a photograph of a swimmer under 18, either on a notice board or in a published article or video recording (including video streaming) of a swimming competition ("publication") should only be done with parental consent and in line with Swim England guidelines.
2. A parent or guardian has a right to refuse to have their child photographed. The exercise of this right of refusal should not be used as grounds for refusing entry into a swimming competition. Therefore, any photo that may go to press or on a notice board, be it through a member of the club or an official photographer, should receive parental consent before being published or displayed, preferably in writing.

Photography Policy

3. In the case of any event or competition where the host organization has an official photographer, or for example intends to stream the event or competition online, all parents / guardians or members who are attending should be made aware of this in the event details. If photos are to be published anywhere, each individual parent / guardian should be given the opportunity to withhold their consent. Their right to do so should be specifically drawn to their attention.
4. Swim England guidelines state that all photographs for publication must observe generally accepted standards of decency, particularly:
 - Action shots should be a celebration of the sporting activity and not a sexualised image in a sporting context.
 - Action shots should not be taken or retained where the photograph reveals a torn or displaced swimming costume.
 - Poolside shots of children should be above the waist only in a swimming costume. Full length shots are permitted if the children are fully clothed.
 - Photographs should not be taken from behind the starting blocks or that show children climbing in and out of the pool.

Published photographs may identify individual by name and organization but should not state the member's place of residence or school attended. Swim England does not wish to stop parents / guardians photographing their child if they wish, but all organisations must ensure they do all they can to safeguard every child's wellbeing, helping parents / guardians understand why they should refrain from including other individual children in such shots.

The official photographer

In some cases, the club will ask a member or officer to act as an official photographer for an event and in some cases they may employ a specialist photographer. Their role is to take appropriate photographs that celebrate and promote swimming.

When taking any image they should be asked to:

- Focus on the activity, rather than the individual child.
- Include groups of children rather than individuals, if possible.
- Ensure all those featured are appropriately dressed.
- Represent the broad range of children participating in swimming.
- Clubs should screen applicants for their suitability (just as they would check any other member of staff or volunteer working with children) and then provide training for them in the club's child safeguarding policies and procedures.
- The official photographer (whether a professional photographer or member of the club staff) should receive clear instructions, preferably in writing, from the club at an early stage.
- The club should provide them with a copy of this Policy and a clear brief about what is appropriate in terms of content
- Images should not be allowed to be taken outside the activity being covered.
- The club should determine who will hold the images recorded and what is to be done with them after they have served their purpose.

Photography Policy

Policy on filming children during training sessions

Filming during training sessions is not recommended unless there is a legitimate need or purpose for the filming. For example wishing to film children to assist in their stroke technique.

If there is a legitimate need or purpose parents / guardians must be provided with full information such as when the filming is proposed, its purpose, who is filming, how the film will be used or published and an agreement on what will happen once the film has served its purpose. This allows parents / guardians to provide informed consent or otherwise. Written consent to the filming should be requested from the parents / guardians. Invite parents / guardians to be present at the filming; if this is impractical allow them to view the film before publication.

Mobile / smart phones

Members must be aware that while Swim England does not support the banning of phones, as children may need them to keep in touch with parents / guardians, particularly in emergencies, we do support the requirement that phones should emit a "noticeable sound" if the camera facility is used.

Clubs should also remind members that any photos taken should fall within Swim England guidelines and that if devices are taken into changing rooms, the facility to take photos must not be used.

It is vital that any suspected misuse of mobile / smart phone devices is reported in accordance with Wavepower guidance.

It is also vital that members must adhere to One Leisure 'Use of Photographic Equipment' Policy (Sept 2021) when using these facilities.

Use of Photographic I

Should photographs or footage of children be posted on a club website or social media platform?

It is recommended that photographs or footage of individual children should not be kept on a club's website or social media platform if the site is publicly "open for the world to see", particularly images of a child with their name displayed that could lead to that child being identified, approached and placed in a vulnerable position. The same could apply to printed materials such as an club's annual report or kit.

Many clubs have member only areas on their website or have privacy settings on social media platforms to allow and control access so that only members and their families can see the content.

It is recommended that children are not fully identified on such sites. Many clubs use just a first name, a surname or a nickname or simply just refer to the squad name. If a club wishes to publish a child's name this should only be done with the consent of the parent / guardian.
