"Thursday Night"	275	25
AFFILIATED		
Postal* (By special arrangement with the club.)	26 (one payment)	n/a
University* (Upon application and approval.)	TBC	TBC

* Postal and university memberships are offered at the sole discretion of the club committee.

University membership usually applies to swimmers who have been members of the club but have moved away, for example, to university. Classification as University members is NOT automatic and is normally reserved for members who have made a contribution to the club over many years of membership, for example, offering assistance with coaching. Simply having trained with the club and then moving away to university is not normally enough to qualify. University members are allowed, with the specific approval of and arrangement with the Head Coach, to train with the club during holidays but usually on the understanding that past assistance they gave will continue to be offered.

Postal members are swimmers who train at another pool (without a Swim England-affiliated competing club) and wish to compete in Swim England events under the name of Stowmarket. The annual fee is paid as a financial contribution to the club, particularly to cover any incidental costs the club may incur. There are no rights to train with the club.
