

Allergy Awareness.

Boldmere Swimming Club is allergy aware.

We encourage our members attending sessions and events to refrain from consuming nuts, as there may be nut allergy sufferers present.

To prevent a false sense of security, and ensure everyone is allergy aware we will announce to spectators and competitors where possible, they also should refrain from eating nuts, as there may be nut allergy sufferers present.

This policy has been adopted because we have several members with nut allergies and we recognise the impact this could have on the health.
